

Georgia Power

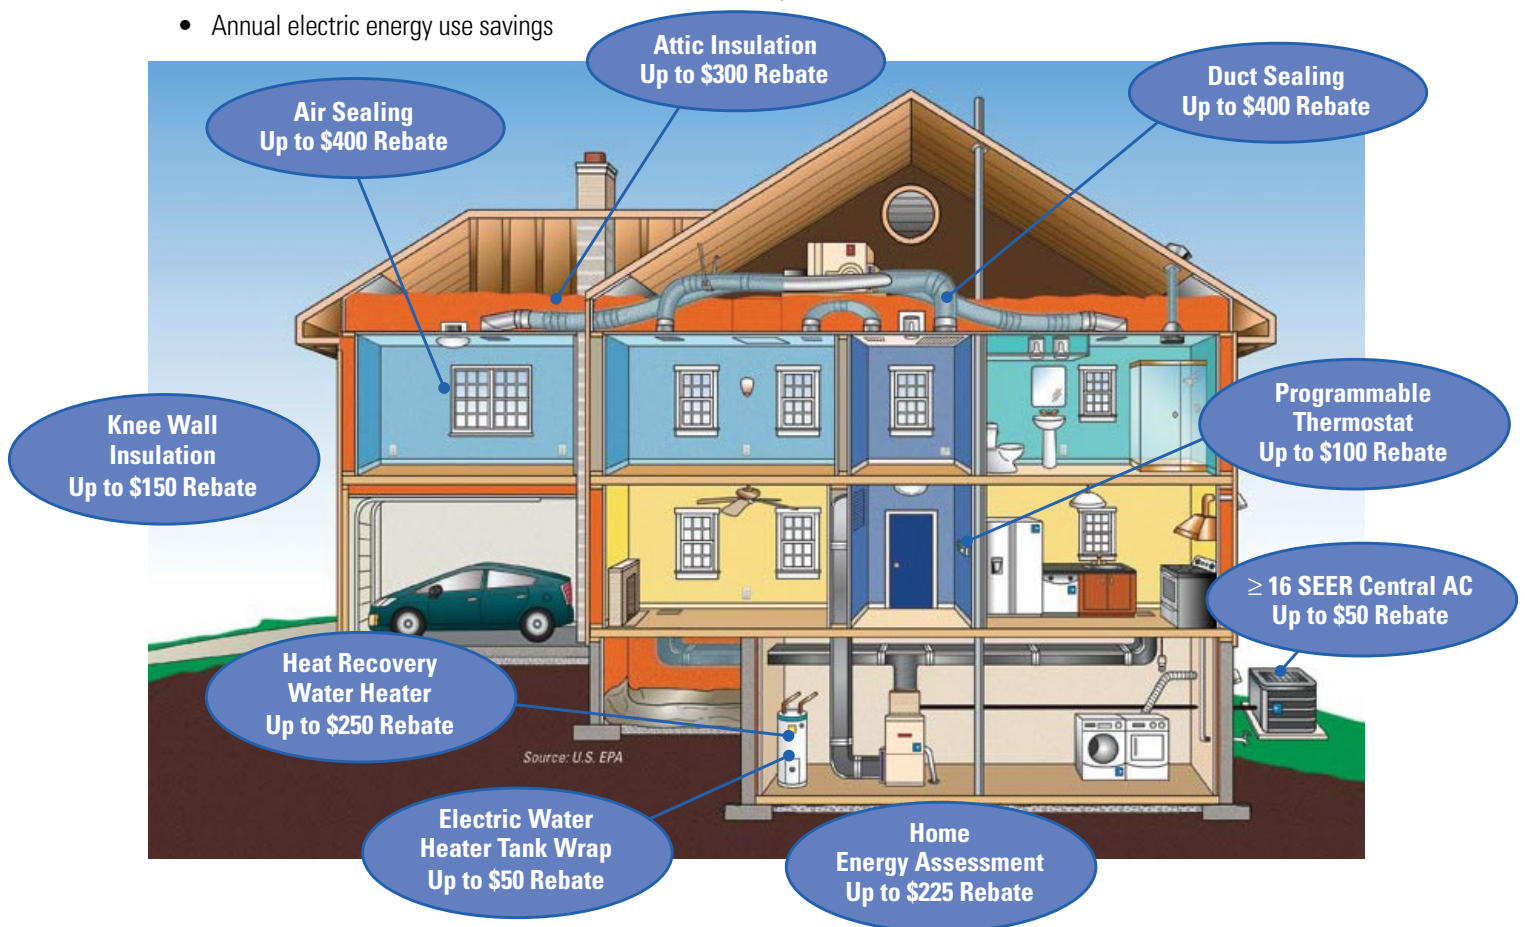

Home Energy Improvement Program

Information on Individual Improvements Approach

Are you looking for a way to save money, make your home more energy efficient and be comfortable in every room of your house? If so, Georgia Power's Home Energy Improvement Program can help.

The benefits of the Individual Improvements approach include:

- Total rebates up to \$700 per year (up to 50 percent of installed cost)
- Flexible improvement options for your budget
- Work performed by a program-participating contractor, certified contractor or homeowner (depending on improvement type)
- More comfortable rooms with fewer drafts and hot/cold spots
- Annual electric energy use savings

Rebate preconditions and requirements may apply. Visit georgiapower.com/homeimprovements for full rebate details.

Within 60 days of your home energy improvement materials purchase date and/or equipment installation date, you must apply for your rebates by submitting the proper documentation outlined on the application on our website. If you are using a participating contractor, please identify up front who will be submitting the rebate application. Please allow 6-8 weeks for your rebate to arrive by mail.

To get started, visit georgiapower.com/homeimprovements or call 1.877.310.5607.

Certain restrictions apply. Must be a Georgia Power customer. Valid through December 2015. Rebate preconditions and requirements may apply. Rebates paid only on recommended improvements and on qualifying equipment and materials. Full details available online.

Georgia Power

Home Energy Improvement Program

Information on Whole House Approach

Do you know how much energy your home is wasting?

Small energy leaks can really add up. The average home has enough air leaks to create an opening over 3 feet wide. Schedule a Whole House Energy Assessment, performed by a certified program-participating contractor, to find out where your home is losing energy.

The benefits of the Whole House approach include:

- Rebates up to \$2,575 to help cover a portion of the Home Energy Assessment and improvement costs
- Potential annual electric savings of up to 30 percent
- Work performed by a Georgia Power program-participating contractor
- Third-party quality assurance to verify that the work is done properly
- More comfortable rooms with fewer drafts and hot/cold spots

3 Easy Steps to Get You Started:

- 1 ASSESS**
A Home Energy Assessment is performed, and customized recommendations will be suggested.
- 2 IMPROVE**
Select recommended improvements to make.
- 3 VERIFY**
A follow-up Home Energy Assessment is performed to measure the total electric reduction goal (20 percent to 30 percent) and determine qualifying rebates.

Whole House Improvements Rebate Cap (Percent of Installed Cost)

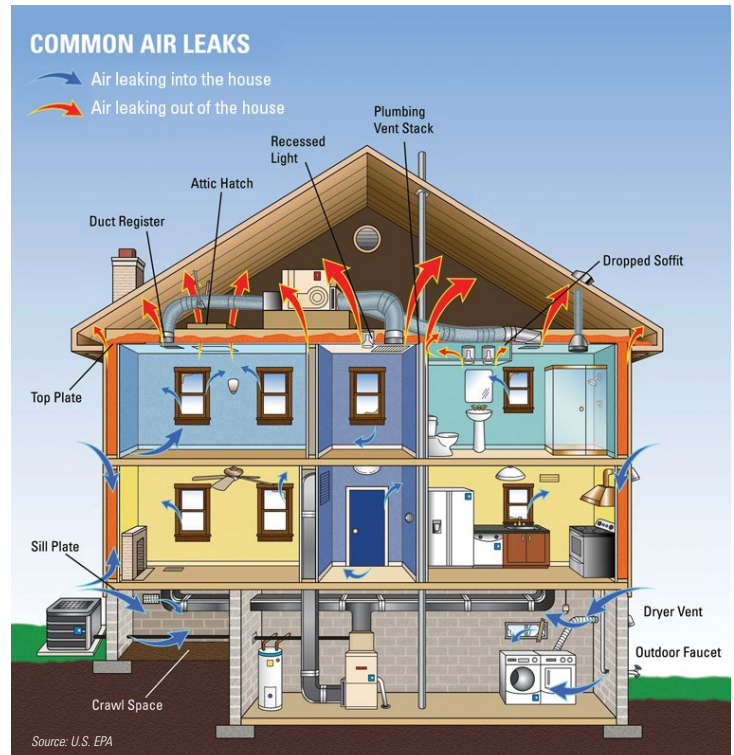

Home Energy Assessment
50% up to \$225

30% Home kWh Reduction
50% up to \$2,200

25% Home kWh Reduction
50% up to \$1,700

20% Home kWh Reduction
50% up to \$1,500

Within 60 days of your Home Energy Assessment test-out date, you must apply for your rebates by submitting the proper documentation outlined on the application on our website. If you are using a participating contractor, please identify up front who will be submitting the rebate application. Please allow 6-8 weeks for your rebate to arrive by mail.

To get started, visit georgiapower.com/homeimprovements or call 1.877.310.5607.

Certain restrictions apply. Must be a Georgia Power customer. Valid through December 2015. Rebate eligibility varies based on improvements made and energy reduction achieved. Rebate request must be submitted with receipt within 60 days of purchase or installation of qualifying improvements. Full details available online.
